

Year 6 Home Learning Unit Autumn

Task A Science

Measure the temperature in your house or garden each day over a week. Can you make a bar chart or line graph to display your data?

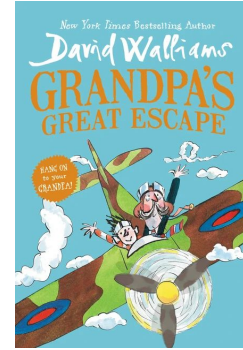

Task B Geography

Choose a European country. Compare and contrast their geographical features with the geography of Britain e.g. mountains, rivers, lakes, population, climate, housing.

Task C English

Write a book review of a book you have read recently.

Task D PE

Can you design an exercise circuit suitable for yourself or another family member? You could even measure your heart rate before and after.

Task E Music

Make a playlist of your favourite feel good songs. Share it with someone else. You can also dance to them 😊

Task F Art

Choose an object/plant/flower and sketch it carefully using as much detail as you can.

Task G English

Watch a film or an episode of a TV show. Choose a character and discuss or write down their strengths and weaknesses. Do you share any of the same traits?

Task H PSHE

Ask the people that you live with what you can help them with. Can you make a list of kind deeds that you have done for other people or people have done for you?

Kindness
is
Magic

Task I History

Make a poster about a famous figure that you admire. This can be an historical figure, a sports star, a musician or actor or anyone else you can think of!
