Introduction to Internet Matters

THE DIGITAL WORLD

The internet is great

Education

Social

Express individuality

New skills

Social media is their online playground

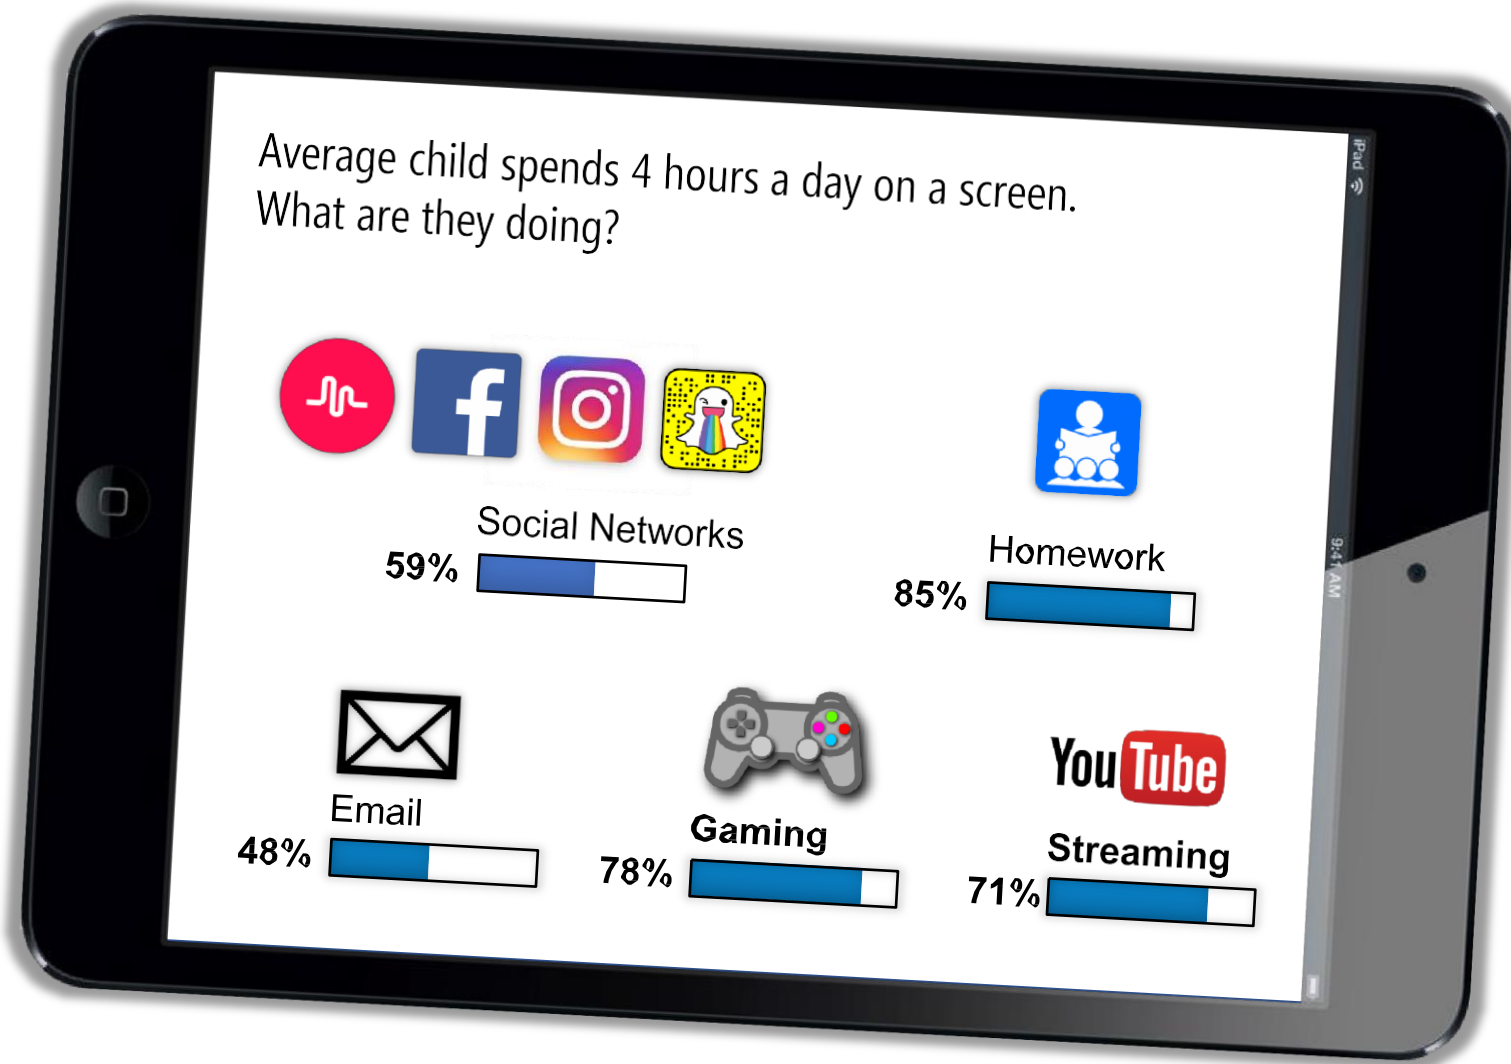

The average child posts **26 times per day** on social media

6 out of 10 followers are friends in the 'real world'

How children are using the internet

Internet use by young children is increasing

6 is the new 10

Age 10
in 2013

New pressures for the digital age

Lauren Seager-Smith
CEO of Kidscape

FOMO- Fear of missing out

“The pull to be part of the ‘in’ crowd is strong and as a parent it can be easy to forget how that felt at 13 or 14 and some of the associated risks. In the online world that can include pressures to share personal images that a child might think will improve their social status.”

Dr. Linda Papadopoulos
Psychologist & Internet Matters Ambassador

Selfies and Mental health

“The selfie phenomenon is like having a mirror following you around 24 hours a day. And not just following you, but giving you a minute-by-minute account of friends, peers and celebrities.”

Katie Collett
The Diana Award

Social media and Self-Esteem

“Many young people revealed that they would delete a selfie they’ve posted if it didn’t get enough ‘likes’ and some told me that getting fewer than even 50 ‘likes’ would make them feel upset and even ‘ashamed of myself’.”

What is CYBERBULLYING?

Definition

The **Anti-bullying Alliance** define bullying as:

The **repetitive, intentional** hurting of one person or group by another person or group, where the relationship involves an imbalance of **power**. Bullying can be **physical, verbal** or **psychological**.

“Sticks & Stones” by Internet Matters

Why is cyberbullying different?

Hard to escape

Instantly reach audience

Repetitive

24 hour access

Anonymity

Hard to police

Cyberbullying terms

How to protect your child

Guide your child to be safe online

Think before you post

Be share aware

Be a good role model

Time online

Get involved

Top tip – have a family agreement
Like this example by Childnet

Family agreement

A family agreement is a great way to start a conversation with your whole family about how you all use the internet, and discuss together how to behave in a positive way when online at home, at school, at friend's houses etc. Bear in mind it is difficult to have complete control over your family's internet usage, however a family agreement is a great way to set clear expectations for positive and safe internet use.

Top tips

- 1 Make sure that both adults and young people are open to changing their online behaviour as a result of your agreement.
- 2 Make sure your agreement works for your whole family and everyone is happy with it.
- 3 Review your agreement in the future to make sure it reflects the current needs and ages of your family.
- 4 Consider your tone - Are you focusing on negative behaviour or promoting positive behaviour?

Starting questions

Who is this agreement for?

What do we use the internet for?

Adult's use	Young people's use

Why are we creating this family agreement?

Childnet International www.childnet.com/have-a-conversation

Have great internet manners

1

Treat others as you would like to be treated

2

If you wouldn't say it to someone in person don't say it online

People can't see your body language, facial expressions or hear the tone of your voice online - so don't over-use icons and punctuation to convey meaning

Don't make a situation worse by provoking people even more

Don't start rumours

Or spread gossip about someone online

Don't make fun of someone in an online chat

Have great internet manners

7

Post things that will inspire and motivate people in a positive way

8

Make sure you don't create a negative environment in an online world or game through name calling

9

Include people in online games and social forums, and don't intentionally leave people out

10

You can't retrieve material once it's sent or posted online so if it might embarrass you or someone, don't put it online

11

Respect other people's privacy

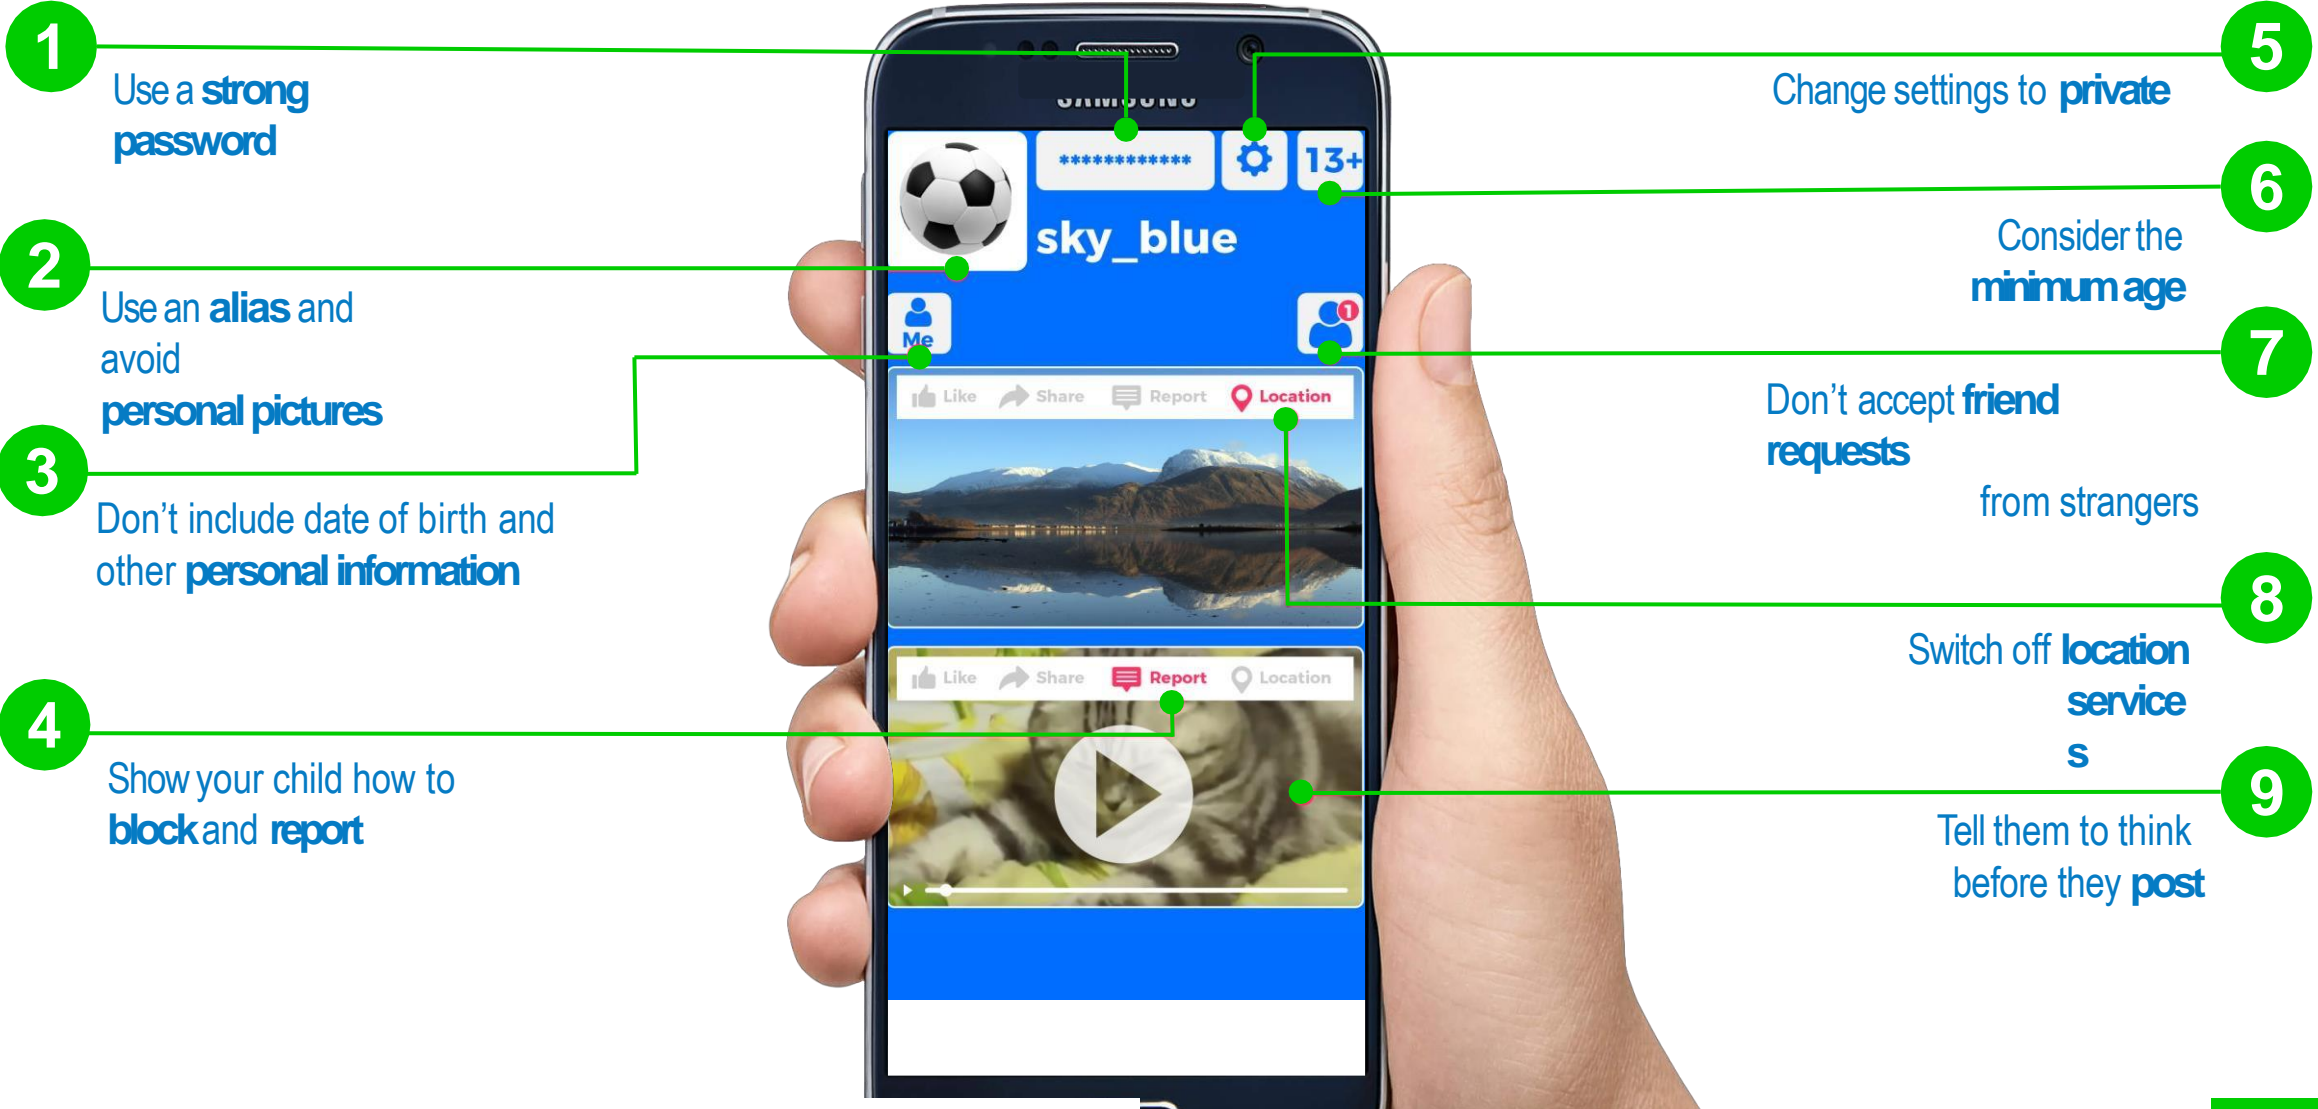

12

Respect other people's time and bandwidth by avoiding posting too much information

Dealing with Cyberbullying

Spotting the signs

62%

of parents worry
about Cyberbullying

1 in 10

parents are aware
their child has been
bullied

Talk about it

- Find the right time to have a conversation
- Stay calm
- Ask open questions
- Reassure them that you are on their side

The do's

Block

Report

Keep the evidence

Know when to take
it further

The don'ts

Retaliate

Stop them going online

Deal with it alone

Stop when the bullying stops

What if my child is the bully...

The do's

Find out why

Talk it through

Stay calm

Teach by example

Learn from it

The don'ts

Ignore it

Get upset

Be judgmental

Condone it

Take away their devices

Our schools approach to cyberbullying

*A chance for you to put some of your **statistics relating to cyberbullying** levels in your school. Do you monitor levels of bullying?*

*Also a chance to explain that you take cyberbullying seriously, that you want to work closely with parents to help tackle **cyberbullying in school**.*

*You could also include your school's **anti-bullying policy**.*

How can you help?

Talking is the best way to help

Remember this is an emotionally-charged problem

Encourage them not to treat bullying as a secret - they can use you as release for their emotions; importantly keep the dialogue open

Stay calm, patient, and ask how you can help

Praise them for being brave enough to share with you

Believe them, refrain from judging or belittling and acknowledge their feelings

Think very carefully about approaching other parents

Always report cyberbullying to the school

Face to face

Call us

Email/Letter

FINAL THOUGHTS

Remember.

Get engaged with their digital life
