Head of School . Mrs G Mckinnon

Nigel Smith - Community Governor

I became a governor at Kingsway in 2020

I am a community governor focusing on school finances.

I have lived in Wigston for the past 8 years. As a day job I lead a team of Bid Writers, working in the public sector to manage procurement processes for local bodies.

I became a governor because originally, there was a need for community governors that could bring skills from industries outside of education to support the school and the leadership team. I have found the role incredibly rewarding and see the positive impact.
