

Richard Morgans

I have recently taken early retirement and I am delighted to serve as Governor to Mullion School where my experience can hopefully add value to the school and leadership team.

I have worked at senior level for global companies to ensure compliance to policies and standards to mitigate risk and to hold senior leadership accountable.

My specialism is in Marketing and Communications and I have international brand, reputation and crisis management experience. I have over 35 years in the education technology, professional and support services sectors in FTSE 100, Fortune 250 and start-up companies.

My most recent experience was working as a Board Director for ONVU Learning, an education technology company. The company was committed to building upon expertise in classroom observation with a focus on improving teacher development, coaching and satisfaction, and ultimately student outcomes.

On a personal note, I grew up in Surrey and Kent, and then moved to Mullion three years ago. Both my Grandparents and Parents lived in Constantine and Helston respectively, and having spent all my holidays on the Lizard and getting married to Davina in Constantine Church; it was our dream to live and work in Cornwall.

I have been a Parent Governor at Shipbourne School in Kent and launched an education company in India, working with some of the top schools in Delhi and Mumbai. I also arranged the building of schools in the slums of Delhi and Nairobi and devised a programme to use sport as a tool for social regeneration in thirteen countries around the world. This involved working with 13 under-privileged teenagers from the likes of Kenya, Peru, India, Guatemala etc to mentor and educate them with the ultimate goal of getting them to the London 2012 Olympics. I am pleased to say of the 13 athletes, 6 went to London and 3 left with medals. I have also served as Board Director of the City of London Sinfonia and Chair of the Development Committee, Board advisor to Cambridge University Rugby Club, advisor to the European Board of Marsh & McLennan Companies (MMC) and Board advisor for Leonard Cheshire Disability.

Both my children are at Mullion School and as a Governor, I currently have responsibility for PE, Performing Arts and PSHE.
