

Number Songs

In your home learning pack you will find a set of number song cards. Begin by showing your child a card as you sing (or play the song on you tube/ Alexa/ your phone if you prefer) the related song (names will be on the back) each time you sing the song show the card. When you think your child is recognising/ showing awareness of the picture offer two cards and ask which one?

Look for any signs of eye pointing, turning towards or reaching out for the picture.

If they are enjoying the song, show them the card again and ask More? If this is at an appropriate level for your child's understanding. If not show them the card and name the song and sing it again.
