NHS signs major letting at the Metrocentre

Gateshead Health NHS Foundation Trust and Newcastle upon Tyne NHS Foundation Trust have signed a long-term lease with Metrocentre for the new Community Diagnostic Centre (CDC).

At just under 40,000 sq ft the CDC facility will provide imaging, respiratory investigations and cardiac investigations with the centre designed to create capacity for these services that are seeing increased referrals. It is an important step in providing improved access to screening and diagnostic services outside of a hospital setting for the people of Gateshead and Newcastle.

‘The North East is open for business’: Thousands attend TechNExT Festival 2023

Thousands of people attended TechNExT festival events across the North East from June 19 to 23, with delegates travelling from as far afield as Singapore to discuss opportunities for the region’s economic development and future skills in tech.

The festival, organised by regional tech network Dynamo and its partner Sunderland Software City, hosted events from Teesside to Northumberland, discussing topics including AI, tech for good and workplace wellbeing while celebrating the businesses and individuals that make the North East a driving force in the tech sector world-wide.

Key visit could boost North East England health tech in the wake of inaugural festival

A delegation of investors from Spain has arrived in the region to see its many specialist facilities and innovations, and understand key opportunities in the health & technology space.

It follows hot on the heels of 2022 analysis by accountancy firm EY published last week, which revealed that North East England is now in the top 10 UK regions for attracting foreign direct investment (FDI), having enjoyed the fastest growth in projects across the UK.
