## Knowledge organiser – Animals including humans (UKS2)

### What will we be learning?

When babies are young, they grow rapidly. They are very dependent on their parents. As they develop, they learn many skills. At puberty, a child's body changes and develops primary and secondary sexual characteristics. This enables the adult to reproduce.

*This needs to be taught alongside PSHE.*

### Key knowledge

- Describe the changes as humans develop to old age

### Key Vocabulary

Puberty – the vocabulary to describe sexual characteristics

### Possible Evidence

Can explain the changes that takes place in boys and girls during puberty  
 Can explain how a baby changes physically as it grows, and also what it is able to do

### Common Misconceptions

*Some children may think:*

- A baby grows in a mother's tummy
- A baby is 'made'
