

Key Stage 3 – Geography

Geography

G1 - Extend their locational knowledge and deepen their spatial awareness of the world's countries using maps of the world to focus on Africa, Russia, Asia (including China and India), and the Middle East, focusing on their environmental regions, including polar and hot deserts, key physical and human characteristics, countries and major cities.

Not Met	Shallow	Emerging	Developing	Deepening	Functional
---------	---------	----------	------------	-----------	------------

G2 - Understand geographical similarities, differences and links between places through the study of human and physical geography of a region within Africa, and of a region within Asia.

Not Met	Shallow	Emerging	Developing	Deepening	Functional
---------	---------	----------	------------	-----------	------------

G3 - Physical geography relating to: geological timescales and plate tectonics; rocks, weathering and soils; weather and climate, including the change in climate from the Ice Age to the present; and glaciation, hydrology and coasts.

Not Met	Shallow	Emerging	Developing	Deepening	Functional
---------	---------	----------	------------	-----------	------------

G4 - Human geography relating to: population and urbanisation; international development; economic activity in the primary, secondary, tertiary and quaternary sectors; and the use of natural resources.

Not Met	Shallow	Emerging	Developing	Deepening	Functional
---------	---------	----------	------------	-----------	------------

G5 - Understand how human and physical processes interact to influence, and change landscapes, environments and the climate; and how human activity relies on effective functioning of natural systems

Not Met	Shallow	Emerging	Developing	Deepening	Functional
---------	---------	----------	------------	-----------	------------

G6 - Build on their knowledge of globes, maps and atlases and apply and develop this knowledge routinely in the classroom and in the field

Not Met	Shallow	Emerging	Developing	Deepening	Functional
---------	---------	----------	------------	-----------	------------

G7 - Interpret Ordnance Survey maps in the classroom and the field, including using grid references and scale, topographical and other thematic mapping, and aerial and satellite photographs.

Not Met	Shallow	Emerging	Developing	Deepening	Functional
---------	---------	----------	------------	-----------	------------

G8 - Use Geographical Information Systems (GIS) to view, analyse and interpret places and data.

Not Met	Shallow	Emerging	Developing	Deepening	Functional
---------	---------	----------	------------	-----------	------------

G9 - Use fieldwork in contrasting locations to collect, analyse and draw conclusions from geographical data, using multiple sources of increasingly complex information.

Not Met	Shallow	Emerging	Developing	Deepening	Functional
---------	---------	----------	------------	-----------	------------
