Key Stage 1 – Computing

Computing

C1 - Understand what algorithms are; how they are implemented as programs on digital devices; and that programs execute by following precise and unambiguous instructions

Not Met	Shallow	Emerging	Developing	Deepening	Functional

C2 - Create and debug simple programs

Not Met	Shallow	Emerging	Developing	Deepening	Functional

C3 - Use logical reasoning to predict the behaviour of simple programs

Not Met	Shallow	Emerging	Developing	Deepening	Functional

C4 - Use technology purposefully to create, organise, store, manipulate and retrieve digital content

Not Met	Shallow	Emerging	Developing	Deepening	Functional

C5 - Recognise common uses of information technology beyond school

Not Met	Shallow	Emerging	Developing	Deepening	Functional

C6 - Use technology safely and respectfully, keeping personal information private; identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies.
