Dear Parent / Carer

School Meals Update

I am pleased to inform you that from today, we have a new provider of school meals. The Nicholas Postgate Catholic Academy Trust is working in partnership with Caterlink, an award-winning catering provider, to provide an improved service to our schools.

We hope that this new partnership will bring many benefits to our school families including:

- New healthy menus with increased choice including vegan options
- The use of fresh, seasonal and local ingredients wherever possible
- A high quality & professional dining experience for pupils.

Our new school meals will cost £2.20 per day. The menus run on a 3 weekly cycle although will be reviewed and updated as appropriate to best meet the needs of the children in our school. Pupils can see the menus on display around school and for your information, they will be shared on our social media channels every Friday for the following week.

We are really excited about this new partnership with Caterlink. There are lots of plans in the pipeline to further enhance the dining experience for our pupils. This includes the appointment of an Executive Head Chef who will drive innovation and quality in the menu options across all schools and also facilitate curriculum delivery, providing support with learning around food and healthy eating.

I am sure that pupils who already enjoy school meals will be impressed with our changes. It's also a great opportunity for children that don't, to try something new!

Please contact Mrs Whittaker if you have any questions regarding the change in school meals provision.

Thank you for your continued support.

Yours faithfully

Mrs L. Rehbohm

Serve the Lord in gladness
