

What does
Maths look like
at St. Clare's?

Intent

We want all our pupils to..

- Leave St Clare's with the maths skills necessary for them to excel in secondary school
- Be confident and competent in their use of maths in their everyday lives - preparing our pupils for adulthood.
- Have opportunities to work individually and collaboratively.

- Have a positive mindset towards maths.
- Leave us with an excellent understanding of the four operations, develop fluency, knowledge, skills and understanding of numbers and the number system, calculations, solving problems, measures, shape, space, and data handling,
- Apply knowledge to solve a range of problems, and in a variety of contexts.
- Persevere and take risks in their problem solving approach to learning in Mathematics.
- confidently present their thinking and reasoning through the use of maths vocabulary, thus enabling them to engage with concepts and build a deep understanding of them. meet expectations. achieve mastery and consolidate knowledge.
- Have a positive mindset of Mathematics and value its importance in life.
- Enjoy Maths!

What does Maths look like in EARLY YEARS?

Mixture of indoor, outdoor, practical, written, verbal.

Concrete, pictorial and abstract approach.

Assessed through interactions with teachers and teaching assistants.

Continuous provision in the room - maths area/activities

Floor books

- 10 4 24
- 5 a day
- $8 \times 5 = 4 \times 10$ ✓
 - 5 tens $\div 10 = 5$ ✓
 - Number 6 7 ✓ 8 ✓ 9 ✓
Double 12/14 16/18
 - Twelve ✓
 - 8 ✓

Can I measure in kilograms?
Fluency

What is the mass of each object?

a)

15 kg ✓

b)

62 kg ✓

Mo weighs his dog in January and June.

15 kg

28 kg

a) How much heavier is the dog in June?

13 kg ✓

Mo's dog is now 10 kg heavier than she was in June.

b) Draw an arrow to show the mass of the dog now.

Reasoning and Problem Solving

Tiny is finding the mass of one box.

Interventions

Find it, fix it

3. Put these numbers in ascending order.

345 350 305 34 340

4. Write the heights of these sunflowers in descending order.

5. These numbers are in order. What could the missing numbers be? Find three possibilities.

412 ? 432 457 ? 498

34, 305, 340, 345 and 350.
105cm, 112cm, 115 and 121.
412, 422, 432, 457, 479 and 498.

Problem Solving and Reasoning 1

Is this statement true or false? Explain why.

When ordering 3-digit numbers, I only need to look and compare the digits in the hundreds column.

because no cause the tens and ones could be smaller and bigger than each tens and ones.

Problem Solving and Reasoning 2

These numbers have been put in descending order. The missing digit is the same in each number. What is the missing digit? Find all the possibilities.

46_ 44_ 4_5 39_ _89

466, 443, 435, 391 and 289.

Challenge 1

Buzzy wants to reach the beehive. She must travel to the hive by moving through the flowers in descending order. Find three possible routes she could take.

356, 304, 201, 198, 170, 156, 150, 134, 121, 56 and 34

I notice that the remainders only go up to two not three. Five a day.

Remainders will always be below the number you divide it by.

- $99 \div 11 = 9$
- $27 \div 9 = 3$
- $0 \div 11 = 0$
- $64 \div 6 = 10 \text{ r } 4$
- $16 \div 8 = 2$
- $46 \div 7 = 6 \text{ r } 4$
- $131 \div 11 = 11 \text{ r } 10$
- $39 \div 3 = 13$

$309 \div 3 = 103$
 $094 \div 3 = 31 \text{ r } 2$
 $9 \overline{) 3309} = 367 \text{ r } 3$
 $0614 \div 5 = 122 \text{ r } 4$
 $3309 \div 3 = 1103$
 $154 \div 2 = 77$
 $2 \overline{) 309} = 154 \text{ r } 1$

Work out the divisions.
 $36 \div 3$ $37 \div 3$ $38 \div 3$ $39 \div 3$
What do you notice about the remainders?
What does this tell you about remainders?

Amir is thinking of a 3-digit number that is less than 500.
When my number is divided by 9, the remainder is 3. When my number is divided by 2, the remainder is 1. When my number is divided by 5, the remainder is 4.

What could Amir's number be?

Use the arrays to complete the divisions.

a) $18 \div 6 = \square$
What do you notice?
c) Complete the number sentence:
 $18 = \square \times 18 = \square \times \square$

The array shows that $6 \div 4 = 8 \div 2 = 2$

Make your own arrays to show these divisions:
 $10 \div 4 = 16 \div 2 = 2$ $32 \div 8 = 32 \div 2 = 2 \times 2$

No two factors to work out $810 \div 6$

Factors of 6 are 2 and 3.
 $810 \div 2 = 405$ or $810 \div 3 = 270$
 $405 \div 3 = 135$ or $270 \div 2 = 135$
So $810 \div 6 = 135$

Use the same method to work out the divisions.
 $126 \div 6$ $960 \div 6$ $1,382 \div 6$ $3,052 \div 6$

Use factors to complete the sentences. None of your factors should be 1

- $16 \div 8 = 16 \div \square = \square$
- $27 \div 9 = 27 \div \square = \square$
- $32 \div 4 = 32 \div \square = \square$
- $40 \div 8 = 40 \div \square = \square$

10	10	20	30	40	50	60	70	80	90	100

2. Identify common factors of a pair of numbers

Factors of 30: 1, 2, 3, 5, 6, 10, 15, 30
 Factors of 20: 1, 2, 4, 5, 10, 20
 Common factors of 30 and 20: 1, 2, 5, 10

3. Multiply multi-digit numbers up to 4 digits by a two-digit whole number using the formal written method of long multiplication

			6	3	2	1	
x					1	5	
			3	1	6	0	5
+	6	3	2	1	0		
	9	4	8	1	5		

4. Use knowledge of the order of operations to carry out calculations involving the 4 operations

B Brackets	$10 + 9 - 8 \times 10 \div 5 + 40$
O Order	$5 \times 2^3 + 4 \times 9$
D Division	$10 \div 5 \times 2 + 10 \div 2 + 10$
M Multiplication	$10 \div 5 \times 7 + 10 \div 2 + 2$
A Addition	$10 + 5 + 7 + 10 + 2 + 10$
S Subtraction	$10 - 7 - 3 + 6 - 8 + 2$

5. Read, write, order and compare numbers up to 10,000,000 and determine the value of each digit including 3 decimal places

6 789 767 - Six million, seven and eighty-nine thousand, seven hundred and sixty-seven
 5593356 - 5 000 000 500 000 90 000 3000 300 50 b
 87 856 ÷ 8 987 900

6. Recognise the value of each digit up to 3 decimal places Use the decimal placement correctly when setting out calculations

4534 + 4/10 3/100 4/1000

7. Know the square roots of numbers for 15 x 15

$\sqrt{1} = 1$	$\sqrt{36} = 6$	$\sqrt{121} = 11$
$\sqrt{4} = 2$	$\sqrt{49} = 7$	$\sqrt{144} = 12$
$\sqrt{9} = 3$	$\sqrt{64} = 8$	$\sqrt{169} = 13$
$\sqrt{16} = 4$	$\sqrt{81} = 9$	$\sqrt{196} = 14$
$\sqrt{25} = 5$	$\sqrt{100} = 10$	$\sqrt{225} = 15$

8. Know prime numbers up to 50.

2, 3, 5, 7, 11, 13, 17, 19, 23, 29, 31, 37, 41, 43, 47.

9. Round any number to a required degree of accuracy

do the nearest	2347126
Lo	2347130
Loo	2347100
Looo	2347000
Looooo	2300000
Loooooo	2000000
Looooooo	0000000

345.67 nearest whole 346
 345.67 nearest tenth 345.7

10. Know tests of divisibility for numbers up to 10.

- 2 If the digit is 0, 2, 4, 6, or 8
- 3 If the sum of the digits is divisible by 3
- 4 If the last two digits is divisible by 4
- 5 If the last digit is 0 or 5
- 6 If the number is divisible by 2 and 3
- 7 If the number is divisible by 7, the original number is divisible by 7.
- 8 If the last three digits is divisible by 8
- 9 If the sum of the digits is divisible by 9
- 10 If the number is divisible by 2 and 5
- 11 Subtract the last digit from the number formed by the remaining digits. If the number is divisible by 11, the original number is divisible by 11.
- 12 If the number is divisible by 3 and 4

11. Divide numbers up to 4 digits by a two-digit number using the formal written method of short division where appropriate, interpreting remainders according to the context

12	5	2	8	4
----	---	---	---	---

12. Divide numbers up to 4 digits by a two-digit whole number using the formal written method of long division, and interpret remainders as whole number remainders, fractions, or by rounding, as appropriate for the context

15	4	3	2	0		
	3	0		0		
	1	3	2			
	1	2	0			
		1	2	0		
			1	2	0	
				1	2	0
					0	

13. Know circle facts

Circumference is the distance around the circle.
 Diameter is the distance across the centre of the circle.
 Radius is the distance from the centre of the circle to the circumference.
 The diameter is twice the radius.
 The radius is double the diameter.

14. Add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions

$$\frac{1}{2} + \frac{1}{3} = ?$$

$$\frac{1 \times 3}{2 \times 3} + \frac{1 \times 2}{3 \times 2} = \frac{3}{6} + \frac{2}{6} = \frac{5}{6}$$

$$2\frac{1}{2} = 1\frac{2}{4}$$

15. Multiply simple pairs of proper fractions, writing the answer in its simplest form

$$\frac{1}{4} \times \frac{1}{2} = \frac{1}{8}$$

16. Divide proper fractions by whole numbers

$$\frac{1}{3} \div 2 = \frac{1}{6}$$

17. Convert between decimals, fractions and percentages.

	1	100%
	0.9	90%
	0.8	80%
	0.7	70%
	0.6	60%
	0.5	50%
	0.4	40%
	0.3	30%
	0.2	20%
	0.1	10%
	0.01	1%

18. Solve algebra

Eg
 $2x + 10 = 5$
 $20 + x = 25$
 I know that $20 + 5 = 25$ so x must be 5
 $56 + x = 8$
 I know that $8 \times 7 = 56$ so x must be 7

Checkpoints

Literacy	Enjoys mark making with a range of equipment, giving meaning to their marks.	Beginning to demonstrate early writing skills - letters from own name etc.	Writes some or all of their names - some letters formed accurately.	Begin to write simple words and phrases. Beginning to form lower and uppercase letters correctly. Captions beginning to contain key words taught in LW.	Can write simple phrases and sentences that can be read by themselves and others, showing Y1 readiness. Spells some key words correctly within their writing.
Early Writing					
Maths (WRM & Mastering Number)	Starting to use some number names. Begins to count, sometimes missing numbers or jumbled sequence. Beginning to join in with number songs. Shows an awareness of mathematical language to compare colour, size, weight, height and positional language. Shows an awareness of shape in the environment and notices patterns. Can complete a simple puzzle.	Beginning to count in sequence and can say which number comes next. Identifies 1 and then 2 objects when asked. Recite numbers to 5 and can show up to 5 on fingers. Beginning to recognise some numerals, particularly those of personal significance. Beginning to use mathematical language to compare colour, size, weight, height and positional language. Can match and name some shapes. Can sort items. Can recognise and continue a simple pattern.	Counts in sequence beyond 5 and can count up to 5 objects, understanding the cardinal principle. Beginning to substitute to 3. Uses numbers spontaneously in play. Identifies numerals to 5 - matching numerals to amount. Uses symbols and marks to represent numbers. Uses the language of more than and fewer than to compare quantities. Begins to solve problems. Can use shape names to talk about 2D and some 3D shapes. Can continue a 3 item continuous pattern.	Can count beyond 10 and can count up to 10 objects, actions, sounds, marks. Matches numeral to amount. Beginning to use language of one more/one less to compare numbers and substitute to 5. Recognises some number bands to 10 and the composition of numbers to 10. Can compare length, weight and capacity. Develop an awareness of spatial reasoning and make and dissect shapes. Create, repeat repeating patterns.	Can count accurately beyond 20. Has a well developed and deep understanding of numbers to 10. Subitise 0-5 and recall number bands to 10. Can compare amounts to 10, recalls doubling and halving facts. Understands odd and even numbers. Confidently compares length, weight and capacity and uses technical vocabulary taught. Has spatial reasoning skills that allow them to rotate and manipulate shapes.

Understanding the World	Children begin to be curious about the world around them. They explore natural materials, both indoor and outdoor. Can talk about own family and can compare similarities and differences to others. Know that where they live is their home and can talk about who lives in their home.	Begin to use their senses to explore the world around them. Explore different materials found indoor and outdoor. Show an interest in their life story and family tree. Develop a positive attitude towards different families and places. Begin to understand that we need to care for our world.	Use their senses to explore the world around them. Continue to be confident when exploring properties, and begin to notice differences. Begin to make sense of their own family and history and can discuss this with others. Begin to understand how living things grow and develop. Know what part of	Explore the world around them describing what they can see, hear and feel. Beginning to talk about community and describe, comment, compare and contrast familiar people and places (past/present). Recognise changes in their immediate environment including change in seasons. Compare and contrast to	Explore the world around them making observations of living things. Recognise similarities and differences in our world through first hand experiences and books. Talk about important people and events from past and present. Understand how to help look after our world. Talk about similarities and differences
		Has some understanding that there are other places in the world (holidays etc)	the world they live in and talk about and have knowledge that there are other places in the world. Use a simple programme on the computer with support.	other places in our world. Recognise that our world is made up of land and sea. Use tools to create something independently on a computer/whiteboard.	between Middleborough and the wider world and discuss different religions using knowledge from books, maps, observations and own experiences. Use a globe/map to identify land and sea. Select and use technology for a reason.
Expressive Art and Design	Shows an awareness of sounds, music, dance, rhymes, action songs. Beginning to explore with a range of musical instruments. Makes marks with a range of tools - paintbrush, dabber, pipette etc). Beginning to engage in pretend play	Beginning to take part in songs, rhymes, dance, music. Beginning to role play stories. Beginning to listen with increased attention to sounds made with musical instruments. Creates a simple picture with some detail. Takes part in imaginative play and begins to develop stories. Beginning to use materials to develop play in other areas.	Join in with songs, rhymes and dance and role play. Can recall and sing entire songs, keeping to the tune. Makes up some songs. Draws with increasing complexity and detail. Takes part in role play both in role play areas and small world	Expresses feelings and emotions through song, dance, art, performances and role play. Draws with detail, using different tools for a purpose - has a plan in mind of what the finished piece will look like and how this will be achieved. Develops own storylines in play and creates props to support this.	Can recall and perform confidently.
