

Christmas Candle Holders

You will need:

Small glass jar

Glitter

PVA glue

Glue brush

Tray or plate

Tea light

Shiny ribbon

Instructions

1. Using the brush dipped in the PVA glue, paint the outline of a Christmas tree onto the outside of the jar. You might choose to paint a few trees around the edge using the glue.
2. Pour some of the glitter onto a flat surface like a tray or plate.
3. Carefully roll the glass jar through the glitter. Gently tap the jar against your hand to remove the excess glitter.
4. Leave the jar to dry.
5. Place a tea light in the bottom of the jar. Tie the ribbon around the top of the jar to make a bow.

*Please note, as this is a glass product, children will need supervision to handle it with care.
