

Dear Children of Year 1.

My name is Orson. I am a small, green moon alien and I live on The Moon, Earth's Moon!

Last night, we zoomed down to Earth with your friend Bob, like we usually do (we like your planet Earth). **BUT**, I was so busy watching the fluffy, flying fish in the sky that I missed our space ship as it flew back to The Moon. I am now lost on planet Earth and I am feeling a bit worried and I miss my Mooma and Doody. I only have three, short legs so I can't walk very fast and my three eyes make it hard for me to hide from humans! I have climbed up one of your upside down craters but being up high makes my large, round head dizzy.

Please can you help me sneak onto Bobs spaceship so I can fly home to my family.

I thank you muchly.

ORSON
