

## Music vision statement

**Our vision is for each child to perform music through both voice and instrument. Through the school year, children will perform to other classes, key stages, whole school and wider community. We aspire for the children to be confident performers who enjoying sharing their talents with others.**

We aim to inspire children through music by providing a range of musical opportunities and activities. We will promote a love of music through singing, performing and listening so children can appreciate the power and gift of music. We aim to encourage and nurture children's talents and enthusiasm. Through teaching music, each child will have a solid foundation in basic musical skills and each child will have opportunities to play a range of instruments.

We aspire to give children as many opportunities to create music and so we will continue to use local artists to develop the children's song writing skills. Through our music scheme, choir and performing arts group we will continue to give children the chance to develop and share their talents with others.

Music is an integral part of our spiritual life. In collective worship, class liturgies and school masses, children sing liturgical hymns and listen to music in reflective prayer.

They will continue to create and share their own songs based on prayer. We will continue to celebrate, pray and reflect through the power of music.
