

Primary School Sports Funding 2019/20

At St. Patrick's we have a tradition of encouraging and helping all young people to engage in sport at all levels. The government now provides additional funding to enable us to provide for our children so that those opportunities are widened and the impact of sport on our children is even greater.

Last year we spent in excess of the funding to provide our children with the best sporting curriculum. Below is a breakdown of how the money was spent.

Sport provision 2019/2020	Cost to school
Stockton School Partnership	£2,250
Additional swimming lessons	£795
Swimming Lessons	£4,870
Free sports clubs	£500
Competitions/transport.	£1,000
Skiing Trip	£10,000
Equipment	£500
Dance Fuzion	£875
Jamie Poole Sports	£17,430
Elite Gymnastics	£3,540
Total	£41,760

Impact on learning

All lessons were graded good or outstanding for both teachers and professional coaches, which resulted in the attainment of children being of a high standard. 85% of children including SEN across both Key Stages met or exceeded the expected level for their year group. Children within EYFS were provided extra opportunities to improve their physical development through gym and **progress** was made in this area. Some children are still finding difficulty with aspects of fine motor movements.

Our after school sports clubs and PE curriculum were linked to partnership competitions throughout the year and this had a significant impact on our success. More children took part in sporting clubs this year because of the range of activities available. During competition each team progressed to the final in basketball, football, athletics, gymnastics and tag rugby. Whilst our younger children showed great talent in gymnastics winning bronze overall in the Stockton Gymnastics Competition, with a silver and bronze medal for individuals. Through our additional swimming lessons all children could swim 25 meters of the pool by the end of year 6. Our talented swimmers achieved higher levels- more achieving bronze and silver awards.

Our aim is to use the funding to:

- Improve teachers subject knowledge and experience
- Work collaboratively with partnerships so that planning is focused on appropriate physical and skill development
- Extend our provision so that more pupils can compete and participate in sporting events
- Improve through careful planning the health and well-being of pupils
- Provide opportunities to participate in a range of sports that would normally not be possible

- All children to be able to swim at least 25 metres unaided
- Opportunities to participate in various afterschool clubs
- Subsidised Skiing trip for Year 5 pupils
- Stockton Schools Sports Partnership

St. Patricks receives £19,570 to help achieve this. St. Patrick's have budgeted to spend **£32,665** this academic year, as we believe that physical development and the participation in sport is an essential life skill. We offer children a range of new experiences with a minimal cost to parents.

How we use our funding:

We believe that children should experience a wide range of sports and it should be taught by experts in those areas. All of the children receive specialist gymnastic coaching lessons by an international gymnast. **We work in close partnership with Future Elite to provide gymnastic lessons within school.**

As many children show an aptitude and an interest we also use the funding to provide an after school gymnastics club so the children can compete in local and regional competitions.

Sports coach Mr Matthew Bowman and Jamie Poole will be working closely with all staff to deliver an outstanding PE curriculum. Lessons are to be delivered by both staff and themselves- enabling professional development for staff and more focussed teaching during PE lessons. It also allows for teachers to focus in on smaller groups of children who may

be struggling with certain skills or concepts and accurate assessments to be made. Mr Bowman will continue to coach our football team as well as teaching key skills to children in after school clubs.

Stockton School Partnership.

At St Patrick's we use the funding to work with Stockton Schools Sports Partnership. This enables the children to participate in a wider range of sports festivals throughout the academic year. Following consultation with a wide range of sports, a National Competition Framework for schools was established to increase the amount of interschools competition available to young people and to improve the quality of existing competitive opportunities. St. Patrick's is able to access this to provide opportunities for children to compete and enjoy a wide range of sports. As part of the partnership we also work alongside coaches to develop effective planning and improved outcomes for children. **We will continue to build upon the PE Gold Award which we achieved last year.**

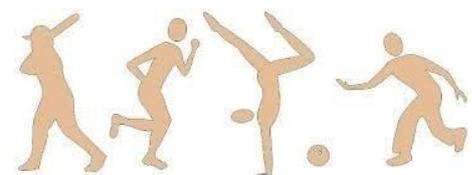

Swimming lessons

Swimming is an essential life skill. We strive for every child to succeed in swimming 25 meters before they leave us at Year 6. If this target is not met we pay for additional intensive teaching in the final term so that all children leave as more confident swimmers.

After-schools Sports Clubs

St Patrick's feel that personal finances should not be a barrier to children participating in sport. We host clubs on most evenings so that children can develop sporting skills without worrying about the cost. We offer: football,

circuit training, dance, table tennis, netball and basketball to children across the school. To guarantee the children are getting the best quality teaching throughout, we are working closely with talented professionals who specialise in certain sports. Dance Fuzion is very popular within school.

Competitions

At St Patricks we strive for success in all areas of our curriculum and Sport in school has continued to thrive over the past year. Through our Sports Partnership our children are able to take part in a range of competitions throughout the area, this includes transport to and from venues without any charge to parents.

Skiing Trip

This year a group of our Year 5 children have been given the opportunity to go on a skiing trip to Les Deux, France. The trip was very popular last year and many children showed great talent in this sport, because they are given 5 days intensive skiing with qualified instructors. As we know this is an expensive sport and St Patrick's have kindly subsidised the cost of the trip to ensure a large amount of children could take part.

Equipment

To raise attainment in sports we have to make sure we have sufficient equipment to use during lessons and after school clubs. We audit our resources and purchase any additional equipment required to enhance the children's learning.

This is how we plan to spend our funding for 2020/21

<u>Sport provision 2020/21</u>	<u>Cost to school</u>
Urban Kaos Dance	£2,500
NPCAT Trust School Partnership	£7,500
Swimming lessons	£4,870
Additional swimming lessons	£795
Competitions/transport.	£1,500
Skiing Trip	£9,000
Equipment	£500
Jamie Poole (Sports Clubs and PE Coaching)	£13,500
Total	£40,165
