

Feedback based on the results of the parent questionnaire carried out in 2021-22

You said	We did	You said	We did
Positive feedback from parents/guardians to our SEN update meetings in the Spring Term	Termly meetings will be organised to share updated SEN Support Plans with parents and electronic copies of the plans will be sent to parents who are unable to attend their meetings.	Being able to come into school and read with the children is a good idea	We will continue to organise opportunities for parents/guardians to come into school and share in their child's learning
Some parents were unsure regarding whether communication about After School Clubs was good	Mr Cara ensures that he communicates information about Extracurricular Clubs to parents/guardians via ARBOR. Parents/guardians are able to sign their children up to the clubs electronically. .	It's been wonderful to see the children enjoying celebrating so many special/significant days and events and raising awareness for special causes, not only has it been fun for the children but it's also reminding them to help others less fortunate than us. Keep it going St Pius.	Personal Development will continue to be at the heart of our school community. It encourages, promotes, adopts and embeds a range of skills that allow pupils to be life-long learners. Our whole school approach promotes effective relationships between all members of the school community.
Some parents/guardians were unsure that their views and concerns regarding After School Clubs were dealt with in a timely manner	Mr Cara makes clear on all communications that he is available to answer any concerns/queries relating to Extracurricular Clubs and provides details of how to contact him.	I think the social media pages are really good to keep parents up to date with what is going on in the school	School will continue to ensure that our presence on social media is relevant and informative. We will continue to promote our social media streams on our half termly Newsletters.
