Survey context: This survey received 4 parent responses. As each response represents 25% of the total, the percentages should be interpreted with caution. The findings provide useful insight into the views of those who responded but are not necessarily representative of the wider parent community.

School Reflection: We are grateful to the parents who took the time to complete this survey. While the number of responses was low, the feedback highlights positive experiences around pupils feeling safe, happy and supported. The comments also remind us of the importance of maintaining strong communication and listening carefully to parental views. During the coming academic year we will continue to strengthen our partnership with families.
