Headteacher: Mr E Rodriguez MA BSc (Hons)

January 2019

Adverse Weather Conditions

In extreme or severe weather conditions a decision about whether the college will be closed will be made as soon as possible. Many factors need to be considered in determining if we can operate the college safely. Please appreciate that this may take time.

If a decision is taken to close the college this information will be posted on our website. Parents and students are encouraged to look there in the first instance. Further to this, local radio stations will be informed and a message confirming the closure will be sent via text and email. Staff will always be on site to look after any students who may have left for school before the final decision was made.

External GCSE examinations

Please note that in the event of adverse weather examination boards will make no changes to the schedule of public exams for year 11 students. Should adverse weather affect the normal running of the College we will make every effort to run public exams, provided this can be done safely. Should a student's normal means of transport to school be affected please make every effort to arrange a safe alternative. Please monitor the website for further information.

We hope of course, that we do not need to operate these procedures.

Edward Rodriguez
Headteacher
