Oathall Community College Homework Policy

Purpose

The aim of our homework policy is to promote active learning beyond the school day as an essential part of good education. We believe that homework should consolidate learning, deepen understanding and prepare students very well for work to come. The homework curriculum should develop the skills and attitudes required for successful learning in addition to developing independent learning and study skills and good time management.

Online System - Bromcom

All students are issued with access to Bromcom, our online school portal. All homework that is set is accessed via Bromcom. Both students and parents can access all of the homework set

Action Statement

The school will ensure that:

- homework is an integral part of the curriculum and is planned and prepared alongside all other programmes of learning. This forms our Homework Curriculum
- homework is appropriate to the age, ability and circumstances of the students, taking into account special educational and any additional needs
- support materials for students and parents will be posted on the school website under the heading Homework Curriculum
- a schedule is provided to support staff, students and parents with setting, completing and submitting homework as well as developing students' time management skills

Teachers will ensure that:

- homework is set and marked in line with the Homework Curriculum schedule and Assessment and Marking policy
- homework tasks are recorded on Bromcom
- homework tasks are wide-ranging, structured and appropriate to the age, ability and circumstances of the students, taking into account special educational needs
- a minimum of one week will be given for completion of homework in Key Stage 4
- students in Key Stage 3 will be set homework fortnightly by teachers and will be given exactly two weeks to complete their homework
