

About the Year 11-12 School Report

The Year 11-12 School Report contains data on young people who currently attend a West Sussex school or attended a West Sussex school in Year 11. Data collected for this report includes current destinations of young people in Year 12 who attended a West Sussex school in Year 11, as well as September Guarantee information for young people in Year 11 who currently attend a West Sussex school. Please note that the Year 12 cohort may differ slightly to the Annual Activity Survey cohort if any young people have had an update to their Year 11 school after the Annual Activity Survey cohort was set in May. Any Year 11s in the September Guarantee cohort will also be in the following year's Annual Activity Survey cohort, so this cohort must be correct by the end of May when this data is submitted to the DfE. Please note that the September Guarantee data may differ from school submissions due to data being received from other sources (e.g. confirmation of offers directly from colleges) and young people having multiple offers. Young people with multiple offers will only have one establishment recorded against them in this report. The September Guarantee submission to the DfE does not contain this detail, only whether or not an offer has been made, but we will make note of multiple offers to help establish actual destinations from September onwards. All of the data has been extracted from our case management system, so please note that this may not necessarily align with data from school submissions during busy data collection periods.
