Dear Parent/Carer

We have been made aware there have been unsupervised children in the school car park, this raises a health and safety concern for us as a nursery school therefore, drop off and collection will be via the main gate on the public footpath.

Parents are expected to arrive at the main gate at your staggered entry time (this gate will be locked until 8:40am) staff will call for parents of each colour group. Staff will greet you and your child and supervise them into the building safely.

When collecting your child, please arrive at the main gate at your staggered exit time and staff will call for parents of each colour group. Parents will exit the school grounds via the main gate on the public footpath.

We appreciate your support in helping us work together to maintain the safety of the whole community and limiting the spread of the virus.
