

PCHS Curriculum Information

Course Title: Art and Design–Art, Craft and Design	Exam Board: AQA	Specification Code: 8201
How will students be assessed? Students will work on two projects in Year 10. Unit 1 Natural Forms Unit 2 Architecture Pupils will learn about the work of other artists, craftspeople and designers using their knowledge and understanding of form, context, content, process and mood. In Year 10 Art students will be able to develop their ideas with reference to the formal elements of line, shape, form, colour, texture and pattern, through experimentation. Students will learn to record their ideas and observations to help develop ideas for each project. Students are expected to use a range of drawing styles and will use written annotation to explain their work and ideas. Students will be encouraged to be creative and realise their intentions in final outcomes for each project. Students are baseline assessed in the Autumn term through practical work in class. Assessment will continue throughout the Year 10 course with reference to the assessment objectives for each unit of work.		

KEY CONTENT
Half Term 1 Natural Forms Assessment Objective 1. They will learn about artists which have been inspired by the Natural Forms theme. Students will learn about form, content, context, process and mood. Assessment Objective 2. Pupils will be given the experience to experiment with a range of Art materials. Students will learn about the formal elements in Art.
Half Term 2 Natural Forms Assessment Objective 3. Pupils will record their ideas. They will produce a range of observational studies, photographs and written annotation.
Half Term 3 Natural Forms Assessment Objective 4. Pupils will develop their ideas inspired by the artists, materials and observations. Pupils will realise their ideas and produce a final personal outcome based on the theme.
Half Term 4 Architecture Assessment Objective 1. They will learn about artists which have been inspired by Architecture. Students will learn about form, content, context, process and mood. Assessment Objective 2. Pupils will be given the experience to experiment with a range of Art materials. Students will learn about the formal elements in Art.
Half Term 5 Architecture Assessment Objective 3. Pupils will record their ideas. They will produce a range of observational studies, photographs and written annotation. Assessment Objective 4. Pupils will develop their ideas inspired by the artists, materials and observations. Pupils will realise their ideas and produce a final personal outcome based on the theme.
Half Term 6 STAR Improvements Students will have the chance to make important improvements to coursework and complete all Year 10 Art studies ready for assessment at the end of June. Launch the Mock Exam project with initial ideas and concepts. Summer Learning Project to take photographs, visit galleries and drawing tasks.
