

TGB To make groups of 10s and practice counting in 10s

I can count 10 objects and recognise number 10. I can make groups of 10s.

I can make groups of 10s and can count in 10s. I am beginning to recognise numbers to 50 when counting in 10s.

Make sets of 10s using objects and practice counting to 10 and then in 10s.

Cut out the numbers and pictures and match together. Can you tell the grown up about any patterns that you can see?
