

REMEMBER TO RECYCLE KEEP PLASTIC OUT OF THE OCEANS

In the Summer of 2024, EYFS pupils from Plover School studied a cross-curricular Learning Expedition looking to answer the guiding question, 'What happens where the sea meets the shore?'

In this coast-focused Expedition, the children experienced the seaside, the creatures that live there and learnt how they can look after our coasts. They then focused on fantasy worlds and created their own seaside and sea-themed fantasy stories.

As a legacy of their learning journey, and to demonstrate activism in the community, they then created these stickers to go on wheelie bins.
