# Google Workspace for Education Fundamentals.

Your current free Edition.

Google Workspace
for Education

Foundational tools for teaching and learning

Education Fundamentals is a suite of easy-to-use tools – available at no charge – that provides a flexible and secure foundation for learning, collaboration, and communication.

Boost collaboration
Make it easy and seamless for everyone in your school community to collaborate, communicate, and participate in real time.
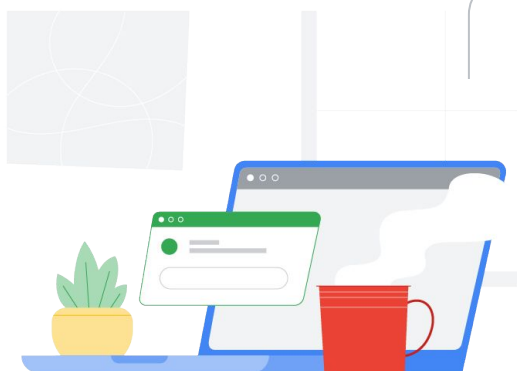

Amplify productivity
Educators can save time by creating, organizing, sharing, and grading coursework all in one place. With a single sign-on, you can access all your files on any device.

Enable digital learning on a secure platform
Rely on best-in-class, multi-layered security with built-in and automated features that simplify security management.

150+ million

More than 150 million students and educators around the world are using Google Workspace for Education.

Google Workspace for Education

Make every minute of learning count

Education Fundamentals is a suite of tools available at no charge that enables collaborative learning opportunities through a secure platform – featuring Google Classroom, Drive, Docs, Forms, Slides, Meet, Gmail, Calendar, Chat, and more.

Collaborate

- Collaborate in real time with Google Meet, Docs, Sheets, Slides, Sites, and Jamboard
- Communicate with learners, educators, guardians, and administrators from anywhere with Google Meet, Chat, and Gmail
- Join virtual meetings directly from a Google Calendar event, email invite, Gmail, Docs, Sheets, Slides, or Google Classroom
- Enable an inclusive learning environment with individual accessibility settings that fit each student's unique learning style

Productive

- Help educators save time with Classroom and Assignments by easily creating courses, organizing classwork, distributing tests, and sharing rich feedback
- Keep grading and feedback consistent and transparent with rubrics and a comment bank
- Help educators streamline workloads by posting and scheduling coursework and building to-do lists in Classroom
- Streamline classroom workflows by easily being able to find appropriate YouTube videos or use Picture-in-Picture view to boost multitasking

Secure

- Rely on Google's data protection practices, which are in compliance with rigorous privacy and security standards and are audited by third parties
- Extend security to all your devices with mobile device management and get the same protections from any device
- Enable security key enforcement and 2-Step Verification for an extra layer of authentication
- Protect sensitive data in Gmail and Drive with automated Data Loss Prevention (DLP)

Get the storage you need

Rely on ample storage with 100 TB of pooled cloud storage shared by your organization.

Upgrade to premium tools

Pick what's right for your institution, depending on your needs:

Education Standard for security and analytics enhancements

Teaching and Learning Upgrade for tools to enhance instructional impact

Education Plus for an all-in-one solution, with advanced security, teaching, learning, and more

Google Workspace for Education

Peace of mind with advanced security features

Stay ahead of the latest digital privacy and security threats and protect student data with Google's industry-leading security infrastructure.

Proactive security

- **Prevent, detect, and remediate** incidents across Gmail, Drive, devices, and more in the security center
- Block more than **99.9% of spam, phishing, and malware** with Google's AI powered Gmail protections
- Automatically scan email attachments in a security sandbox **to prevent ransomware** attacks
- Gain **instant visibility** in a security dashboard to view rule violations, compromised devices, and more
- Get helpful tips and **custom recommendations** in your security health page to stay ahead of threats

Holistic controls

- **Centralize control** in the Admin console, a unified tool for security, data, and device management
- **Identify, triage, and take action** on security and privacy threats with the security investigation tool
- Set context-aware access policies to **restrict access** based on user identity, location, device security status, and IP address
- **Define data regions** to limit or distribute data based on compliance requirements
- Prevent breaches with drive labels and trust rules to **proactively set rules** for sensitive file sharing
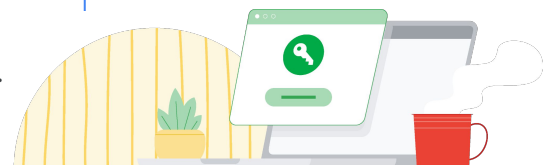

Analytics and insights

- **Track usage** across your domain by analyzing **log event data** across Classroom, Gmail, Drive and more
- **Analyze trends** and form deeper insights using high performing, custom queries in BigQuery or templated dashboards made for education within Looker Studio

Teaching and Learning Upgrade

No minimum requirement.
Choose as many licenses as you need.
£33.75 per license per year.

Google Workspace
for Education

Empower educators to do their best work

Help educators enhance instructional impact with tools that make learning more personalized, create classroom efficiency, and enable teaching and learning from anywhere.

Personalize learning experiences
Strengthen instructional impact with tools that can make learning more personal, and give educators quicker insights into students' understanding.

Simplify class management
Create more time for teaching and learning with integrated and intuitive tools that reduce administrative workloads, and get additional storage for your institution.
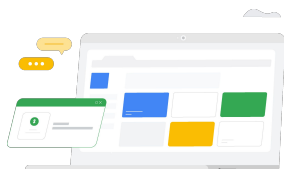

Teach and learn from anywhere
Connect your school community with enhanced video capabilities for classes, parent-teacher conferences, professional development, and more.

Choose how many licenses you need.
Gain more flexibility in your budget by only paying for the amount of staff licenses you need.

Secure by default. Private by design.

Get peace of mind knowing your school community runs on the **world's most secure cloud-based productivity suite**. All features within the Teaching and Learning Upgrade are ad-free. And you own your data – it's our responsibility to protect it.

Deepen every learning opportunity

The Teaching and Learning Upgrade provides enhanced capabilities and deeper product integrations to save time and enrich learning experiences.

Make learning more personal

- **Transform teaching content into interactive assignments** that give students real-time feedback and automated hints with the help of AI in Google Classroom practice sets

- **Combine meaningful learning with educational videos** where student answers are instantly validated with interactive questions for YouTube videos in Classroom

- **Identify where students might need support** with class and student-specific insights in Classroom learning tools

Save time with integrated tools

- **Access your tools with a single sign-on**, including Classroom add-ons like Pear Deck, Kahoot!, and Nearpod

- **Enable automatic grading** and share practice set assignments with other educators in your domain

- **Encourage original thinking and identify missed citations** with unlimited originality reports, which compare work to public sources and your school-owned repository

- **Get an additional 100 GB of Drive storage** for each staff license added to your shared pool of 100 TB

Build stronger connections

- **Connect your community** with up to 250 participants or live stream up to 10,000 viewers with Google Meet

- **Engage students better** with breakout rooms, Q&A, and polls

- **Make learning more accessible** with recordings, translated captions, transcriptions, and tile pairing, which makes it easier to focus on key participants

- **Enable smoother presentations** in Google Meet and Slides by viewing speaker notes and co-presenting with another educator

Reduce costs, improve security, and save time with Education Plus – your all-in-one EdTech solution.

170M+ Google Workspace for Education users worldwide[2]

1. EdTech (June 2024)

Google for Education

Explore Education Plus
edu.google.com/educationplus

Consolidate your tech stack with a **comprehensive EdTech solution.**

Reduce costs
Eliminate the need to invest in, administer, and support other EdTech tools

Improve security
Get protection from one of the world's most advanced security infrastructures

Save time
Access teaching and learning tools easily in one place using a single sign-on

Strengthen security and insights

Prevent cyber threats before they emerge

- Prevent, detect, and remediate security incidents across your domain and get customized recommendations
- Block 99.9% of spam, phishing attempts, and malware in Gmail with AI-powered protections
- Get instant visibility into data loss prevention rule violations, compromised devices, external file sharing, and more

Centralize data and access management

- Manage privacy and security policies and control granular data and device settings in a unified tool
- Control who can access files, apps, and sensitive data by user identity, device security status, IP address, and more with context-aware access policies
- Support compliance with GDPR, FERPA, COPPA, and more while limiting data to the US or Europe

Develop insights with analytics and data visualizations

- Get real-time insights and visibility into how students turn in, perform on, and engage with assignments*
- Analyze product usage and potential security threats with advanced queries and data visualizations

Enrich teaching and learning

Personalize learning experiences

- Help students learn at their own pace and offer hints when they get stuck, with the help of AI, using practice sets
- Assign interactive questions for YouTube videos* in Google Classroom
- Integrate and assign leading third-party tools and grade assignments by your preferred grading structure

Save time and simplify class management

- Create shareable class templates and classwork* with pre-populated curriculum in Classroom
- Virtually visit a class and temporarily grant access to support staff as an Admin
- Review student work for originality against material online and your school-owned repository of peer matches
- Get an additional 20 GB of Drive storage for each paid license on top of the 100 TB of pooled cloud storage

Teach and learn from anywhere

- Deepen engagement with breakout rooms, Q&As, polls, live-translated captions, transcripts, and recordings
- Include up to 1,000 participants or live stream in Google Meet
