Severndale Specialist Academy

Everyone valued. Everyone included. Everyone learning.

26th November 2020

Confirmed Covid-19 case, Severndale Specialist Academy - Community

Dear Parent/Carer,

We have just been advised that a single case test result has come back positive for Covid-19. The case is within our Admin Department. We have needed to close the bubble.

The impact of this may mean that some of our usual operations are slower to complete and there may be delays experienced as our administration functions will continue offsite.

As you know, the whole of Severndale Specialist Academy has enforced rigorous systems to protect our children and staff in line with national guidance. All of our processes have been in place but unfortunately schools are a reflection of the current COVID picture.

As you would expect, we have reacted swiftly to implement the guidance for this situation, all staff directly involved have been contacted. Any potentially contaminated areas will be deep cleaned in line with our risk assessments and guidance documents.

- Household members can carry on as normal, unless someone in the household becomes symptomatic.

For most people, coronavirus (COVID-19) will be a mild illness.

If you are concerned about your child and the symptoms of COVID-19, please seek advice from your GP, NHS Direct or by calling NHS 119.

I fully appreciate how worrying these times are for us all, but please feel reassured that we are following government guidelines fully and our systems for containing a case have worked effectively.

Kind regards,

Sabrina Hobbs
Principal
