

# What can I do with Geography?

# If you're interested in the Earth and everything on it...

...its physical characteristics and its human ones

...how we interact with and change our environment

...the effects of the movement of people, products, information and ideas

...making sense of regions and locations

# then studying Geography will develop skills such as...

- Analytical
- Research
- Cultural awareness
- Ability to recognise ethical and moral issues
- Technical skills e.g. field work
- Critical thinking
- Independent working
- Communication

# and could lead to working for...

as well as...

Energy Companies

Government

Utilities

Environmental Consultancies

Commerce

Industry

Transport

Tourism

Civil Service

and Charities like...

# You could work in roles such as...
