Sims Parent App Application

You should use this form to apply for access to our Parent App in order to view term reports, attendance and behaviour information over the internet. You need only enter the details for your youngest child at school. Family records will be linked so that all children are visible using one account per parent (or you can share one account). Please write clearly in the spaces provided. Return the form by post, or send with your child to their form teacher.

Student Details:

Surname, Forename	Year	Form	Date of Birth
