

What can I do with Maths?

Good Maths skills are essential for so many jobs.

Maths helps us ...

- Understand how things work
- Predict change
- Set prices
- Create graphics
- Build websites
- Create structures - from skyscrapers to stadia (that's plural for stadium!)
- and much, much more

Most employers (and universities) want at least grade 4/5 in Maths GCSE.

Studying Maths helps develop skills such as...

- Logic
- Problem solving
- Analytical
- Ability to interpret data, find patterns and draw conclusions
- Research
- Organisational – working methodically and accurately
- Teamwork and independent working
- Planning
- Budget management

It will help you get jobs in...
