

Guidance for Remote Education curriculum adaptations changes section on web site:

Document	Guidance
1. Curriculum statement of intent	Computing ensures that students become digitally literate – able to use, and express themselves and develop their ideas through, information and communication technology – at a level suitable for the future workplace and as active participants in a digital world.
2. KS3 Curriculum Implementation overview	<p>Students will be taught key practical skills in using the Google Suite platform used for remote education. This will ensure they have the knowledge and understanding needed to effectively engage with all subjects and have the practical experience needed to create and submit work using Google Applications.</p> <p>Students will be taught these skills whilst still looking at key theoretical content for KS3 Computing. For example ??</p> <p>Summarise how your KS3 Remote Curriculum content differs from the standard curriculum. You can refer readers to the standard curriculum overview for comparison</p>
3. KS4 Curriculum Implementation Overview	<p>Summarise how your KS4 Remote Curriculum content differs from the standard curriculum You can refer readers to the standard curriculum overview for comparison</p>
