

Information for parents/carers

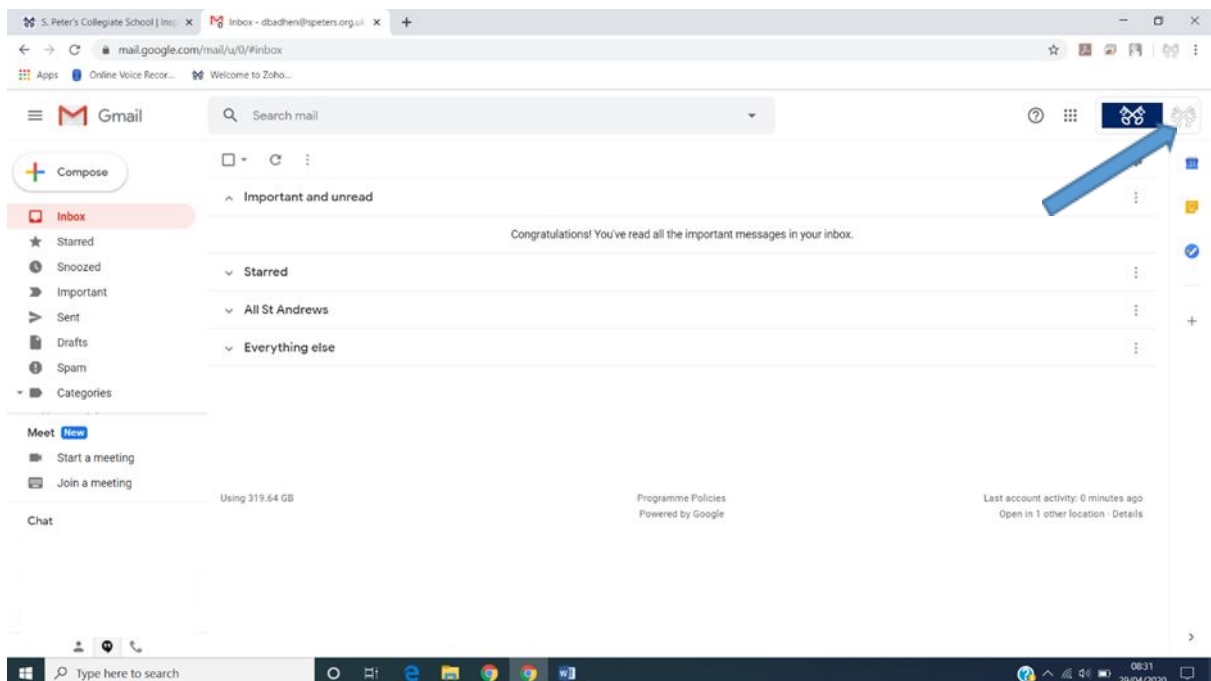

## Do you share a device at home?

### How to sign out a shared device at home

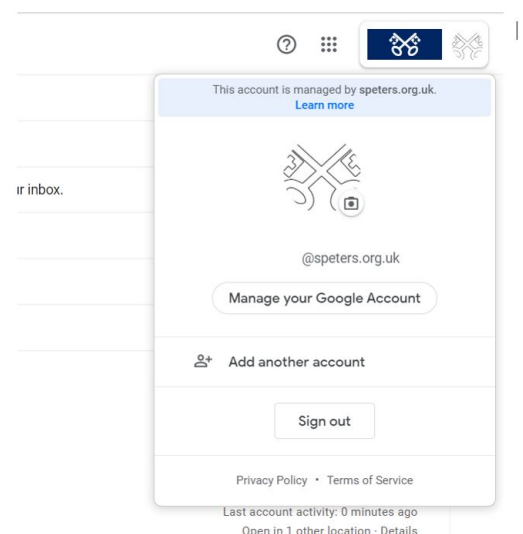

Here is a short guide to making sure you fully log out of one Google account before another child tries to log on to their Google account.

To fully sign out of a Google account:

Click on the profile pic, top right of screen as shown below.

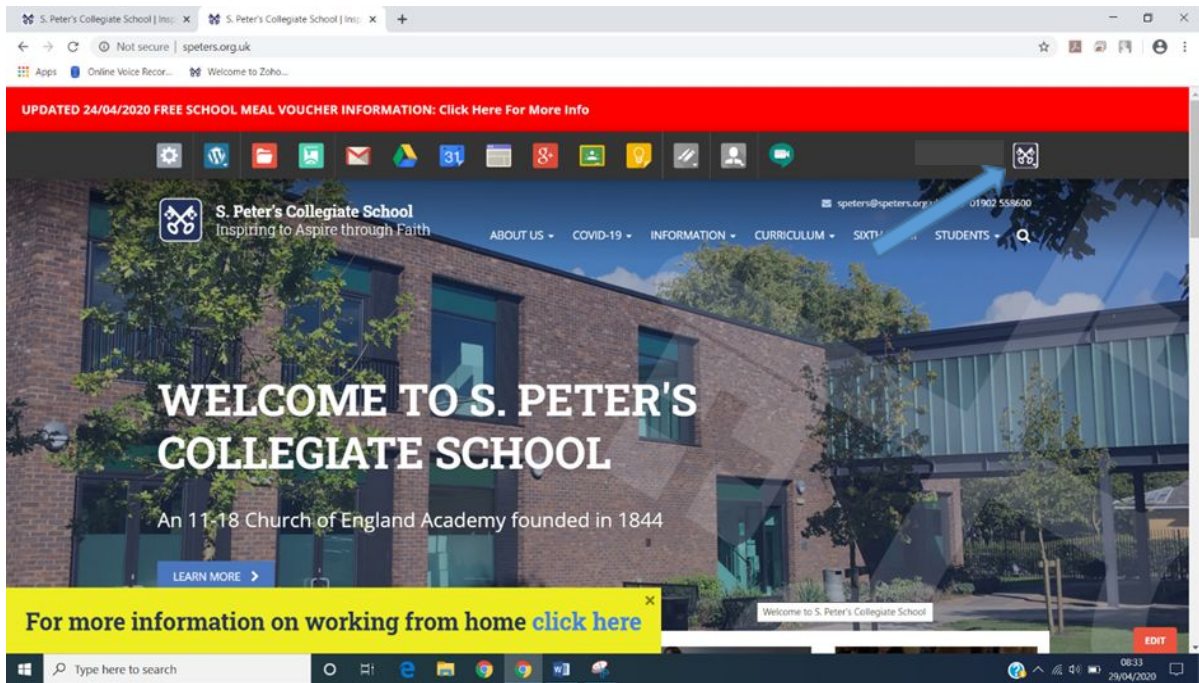

Which will bring up a pop up box, simply click the sign out button.

You will then be redirected to the School website homepage, you now need to log out of the website.

Click the icon top right of screen and Logout.

Once you have done this, the device will be ready to be used by another student.
