Proposed Changes to Summer Examinations Summer 2022: Miss Davies Exams officer

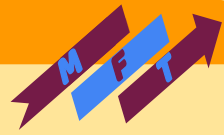

- There will be optional topics and content in GCSE English literature, history, ancient history and geography. Ofqual will require exam boards to change how they assess these subjects to reflect the expected changes to the way the subject content is assessed, as proposed in the consultation.
- Students taking GCSE, AS and A level art and design will be assessed on their portfolio only.
- Exam boards will provide advance information about the focus of the content of the exams for all GCSE, AS and A level subjects (except GCSE English literature, history, ancient history and geography) for the summer 2022 exams. The advance information will meet the principles set out in the consultation document.

Proposed Changes to Summer Examinations Summer 2022: Miss Davies Exams officer

- The policy intention of providing advance information is that it will support students' revision. Therefore, the DfE has confirmed that advance information will be provided by 7 February 2022 at the latest. This will enable teachers to plan to adapt their teaching in the second half of the spring term if necessary.
- Students will be given a formulae sheet for GCSE mathematics in summer 2022. Exam boards will provide copies of the formulae sheet for use in teaching and to ensure that students are familiar with it prior to the exams. Clean copies of the formulae sheet will be provided in the exams.
- Students will be given a revised equation sheet for GCSE physics and combined science in summer 2022, covering all the equations required in the subject content. Exam boards will provide copies of the equation sheet for use in teaching and to ensure that students are familiar with it prior to the exams. Clean copies of the equation sheet will be provided in the exams.

Full proposed changes can be found at <https://www.gov.uk/government/consultations/proposed-changes-to-the-assessment-of-gcses-as-and-a-levels-in-2022/outcome/decisions-proposed-changes-to-the-assessment-of-gcses-as-and-a-levels-in-2022>

How can you help your child and prepare them to perform?

Each day you can support your child to make choices which can impact how they perform during the exam period

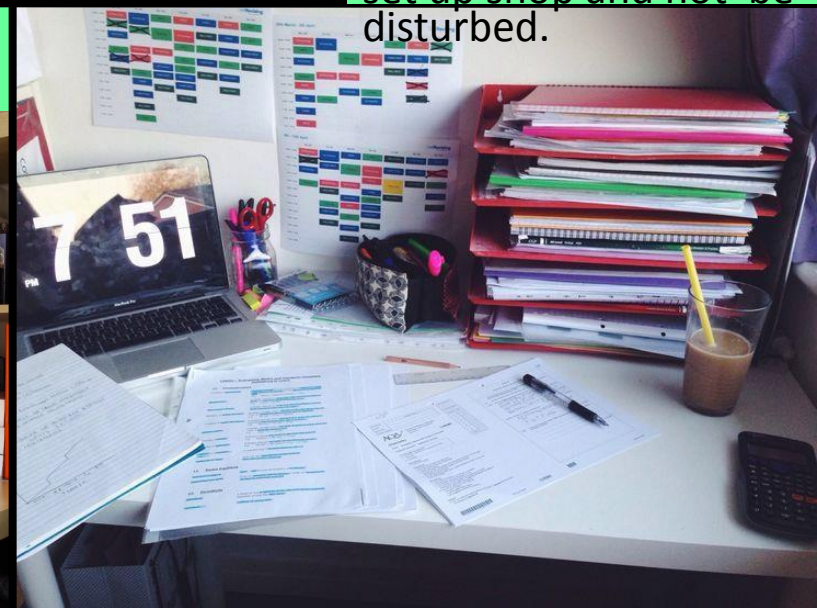

1. Being a role model.
2. Attendance.
3. Attitude to learning.
4. Help them set goals.
5. Keep them active.
6. Healthy eating.
7. Time out.
8. Sleep patterns.
9. Unplugging.
10. Staying cool & calm.
11. Belief.
12. Be supportive.

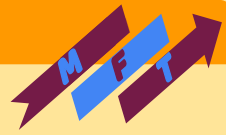

Find a quiet space!
This is a pretty straightforward one: you desperately need a place where you can be uninterrupted for a few hours. Your room, the spare room, a study area, an unused dining room... somewhere you can set up shop and not be disturbed.

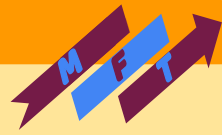

Dedicated Revision

Plan Early

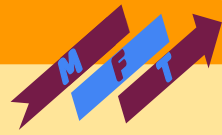

- It ought to go without saying that planning your revision timetable **must be done before anything else**, to ensure there is enough time for comprehensive coverage of all subjects.
- GCSE students, for example, usually study between eight and twelve subjects. If you plan to devote a week revising each subject, then that will require months of revision.
- There are lots of ways to do a timetable. Here are a few ideas...

	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY	SUNDAY
8:30 – 9							
9 – 9:30							
10 – 10:30							
10:30 – 11							
11 – 11:30							
11:30 – 12							
12 – 12:30

8 – 8:30							
8:30 – 9							
9 – 9:30							
9:30 – 10							
10 – 10:30							

Start with half hour slots.

In this age of distractions, it will be very difficult to expect yourself to concentrate completely for longer periods...

	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY	SUNDAY

Special Educational Needs
& Disabilities

What does it mean if my child is on the SEND Register?

SEND and Access Arrangement Information: Mrs Fletcher Assistant SENDCO

A child or young person has a Special Educational Need or Disability (SEND) if they have a significant learning difficulty or disability, which calls for special educational provision, namely provision **different from or additional to** that normally available to pupils of the same age.

A child of compulsory school age or a young person has a learning difficulty or disability if he or she:

- Has a significantly greater difficulty in learning than the majority of others of the same age, or
- Has a disability which prevents or hinders him or her from making use of facilities of a kind generally provided for others of the same age in mainstream schools or mainstream post-16 institutions.

SEND and Access Arrangement Information: Mrs Fletcher Assistant SENDCO

Exam Access Arrangements (EAAs) are the reasonable adjustments that can be made for an exam candidate and might include things like:

- a reader
- a scribe
- extra time to complete an exam paper
- permission to use assistive technology
- provision of rest breaks

Exam arrangements can only be granted through:

Assessor's report

history of need

significant and long-term impairment e.g extra time, below average speed

supported by evidence e.g) Educational Psychologist's report, teacher report

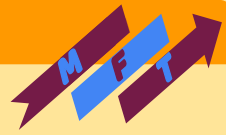

normal way of working

Maths GCSE Summer 2022

DFE has decided as a matter of policy, and in view of the disruption caused by the pandemic, that it is not necessary for students to memorise formulae for GCSE maths, as they must in a normal year.

A formulae sheet will be provided during the exams, as well this will be provided for use in teaching.

*DFE has confirmed that the policy intention of the advance information is to support students revision rather than a reduction in subject content. Its policy is that it should be released by **7 February 2022** at the latest.*

What this means is we will adapt our teaching to focus on what we are told.
