Education Development Team

In recent years, SLT has established a highly successful strategy of talent development and succession planning for leadership. This has meant that we have developed a large team of specialists who are able to help colleague professionals and their academies improve. The Trust leaders recognise that, often, the best support is available from within the Trust. Where it is not, we have a growing number of Approved Consultants who are inducted into the ethos of SLT and commissioned to carry out activities for SLT because they have specific expertise or experience. For example, OFSTED Inspectors, Alternative Provision etc. Our network of expertise that we can call on is vast.

	 <p>Dom Kenrick Experienced Secondary Head of 1500 students. Expertise in research led improvements and Character Education.</p>	 <p>Mark Sears Experienced Primary Head. Expertise in mentoring and coaching Headteachers and enrichment curriculum.</p>
