How we use pupil information

We, the Laurus Trust, are a data controller for the purpose of the UK General Data Protection Regulation (UK GDPR). We collect information from you and may receive information about you from your previous school, local authority and/or the Department for Education.

This privacy notice has been created to inform children, young people, and their parents/carers, how we use their information.

We collect your information to:

- *to support pupil learning and the delivery of education*
- *to monitor and report on pupil progress*
- *to provide appropriate pastoral care*
- *to assess the quality of our services*
- *to keep children safe*
- *to comply with our statutory obligations*
- *Monitor the security of the school's site to ensure the safety and wellbeing of staff, pupils and visitors*

The categories of pupil information that we collect, hold and share include:

- *personal identifiers and contacts (such as name date of birth, unique pupil number, contact details and address)*
- *characteristics (such as ethnicity, language, religion and free school meal eligibility)*
- *safeguarding information (such as court orders and professional involvement)*
- *special educational needs and disability status*
- *medical and administration (such as doctor's information, health, allergies, medication and dietary requirements)*
- *attendance*
- *assessment and attainment*
- *behavioural information*
- *CCTV images to monitor the security of the site to ensure the safety and wellbeing of staff, pupils and visitors*
- *Passport information*
- *Bursary information*
- *Biometric data*

We share pupil data with a number of services in order to provide appropriate support for our pupils. This will include Local Authority educational services including specialist inclusion, support and access services as well as health services like School Nursing.

Some Laurus Schools are using AI for marking purposes. The marking is done by the Large Language Models (LLM) which uses the student's response to a question and then uses the LLMs to judge against the mark scheme that teachers provide. This is a recognised use case for AI in education and there was a paper released by the DfE stating LLMs can be used to assess student work. You can find the original policy paper on the DfE website. The AI marks the student response against the mark scheme. We also use multiple AI marking validation, so each piece of work is marked by multiple AI examiner models, which flags for confidence scoring.
