

Overview of KS5 Attainment and Progress 2022

The Government have announced that due to the “*Uneven impact of the pandemic on 2021/22 school and college performance data*” they recommend:

- Not making direct comparisons with data from previous years or between schools or colleges.
- Discussing with the school or college factors that may have influenced these results and consider a range of information when forming a view on how well a school or college is doing, including pupil/student population information:

Trinity’s data for 2022 is available on the following link:
