

COMPUTER SCIENCE LEARNING JOURNEY

Bespoke Revision

2.5 Programming Languages & IDE
Integrated Development Environment
High Level & Low Level languages

2.4 Boolean Logic
• AND
• OR
• NOT

2.3 Producing Robust programs
• Defensive design consideration
• Maintainability
• Input validation

2.2 Programming Fundamentals
• Variables and Strings
• File Handling
• Arrays
• Loops

2.1 Algorithms
• Searching & Sorting
• Flowcharts
• Pseudocode

1.6 Ethical, Legal, Environmental, Culture
• Computer Laws
• Environmental
• Cultural

1.5 System Software
• Operating Systems
• Utility Programs
• Encryption

1.4 Network Security
• Malware
• Brute Force Attack
• SQL Injection

1.3 Computer Networks, connections and protocols.
• LAN and WAN
• Internet
• Topologies

1.2 Memory & Storage
• Primary and Secondary
• Data Representation

1.1 Systems Architecture
• CPU
• Computer Systems

Python Next Steps
Searching & Sorting Algorithms
While Loops
Arrays
Python Turtle

Networks
• Connectivity
• Topologies
• Client - Server/Peer to Peer
• Encryption

• HTML
• CSS
• Design
• Development
• Web forms

E-Safety
• File Management
• Social Media
• Keeping your data safe

What is AI
• Machine Learning
• Ethics of AI
• Image Recognition
• Turing tests and AI

Cybercrime
• Email Scams
• Computer Misuse
• Protecting Personal Data
• Copyright
• Health & Safety

Strings and Variables
• Datatypes and Arithmetics
• Selection
• Loops

Kodu 3D gaming
• Storage
• Game Design
• Kodu Game Lab

E-Safety
• File Management
• Social Media
• Keeping your data safe

Understanding Computers
• Hexadecimal
• Storage
• Binary Addition
• Elements of a Computer

Story Mode Game
• Algorithms
• Developmental Life Cycle

Spreadsheets
• Rows
• Columns
• Formulas
• Functions

Computational Thinking
• Abstraction
• Decomposition
• Algorithm
• Logic Gates

E-Safety
• File Management
• Social Media
• Keeping your data safe
