

## Key Instant Recall Facts

### Year 5 Spring 1

#### Target:

By the end of the term, your child should be able to 'recall metric conversions (e.g. cm to m, mm to cm, g to kg).

#### Key Vocabulary

Convert / conversion

Millimetres

Centimetres

Kilometres

Grams

kilograms

#### Questions to ask

- Which is the longest / shortest measurement?
- Which is the heaviest / lightest measurement?
- Which is the most appropriate unit of measure for ...

#### Activities to try at home

- Use a fitness tracker to measure a walk, convert this to meters/ kilometres.
- Get your child involved in cooking, can they weigh out the correct measurements? Convert this from grams to kilograms
- Plan a route you want to go on together! How far is it in meters / kilometres.
- Use a ruler or tape measure to measure the length of different objects in the house in mm, cm and m. Challenge! Can you order them from smallest to largest (ascending order)?
- Games to try!
