

Wylam First School Ambition and Intent

Our high expectations and aspirations for all pupils is represented in our desire to deliver a challenging, engaging, well structured and progressive curriculum through 3 curriculum drivers: *Personal Development, Knowledge and Welfare, STEM and Creative Development*. We aim to equip our pupils with long term knowledge and skills and the ability to demonstrate our core values; resulting in children being skilled in *critical and creative thinking, problem solving and enterprise and demonstrating high levels of perseverance and emotional and physical intelligence*.

Through this we aim to ensure that all pupils reach their full potential and are not only ready for their next stage in education but are equipped with the skills and cultural capital they need to thrive in education and beyond.
