

Whickham Community Award

TOM RUTHERFORD

Tom has made a significant contribution to our community at Whickham and engaged in a number of activities that have made a positive difference to the local community. He has done all of this whilst maintaining high standards in his academic studies. Within school his contribution to the organisation of Sports Day and weekly contribution to our running club has enriched school and particularly sport for many others. Tom's presentation and representation of the school at Komatsu reflected his good communication skills and position as a role model for other students. Finally, his volunteering work at the World Transplant Games highlighted the commitment he has to not just supporting sport but enriching experiences of the wider community. Well done Tom, you are a very worthy winner of the Whickham School Community Award.
