In Memory of Craig Jones

Craig was part of the first ever cohort of students studying the Extended Project Qualification, sadly he died before completing the qualification. To reflect the calibre of his work he was posthumously Awarded A* by the examinations board. He is remembered as a highly intelligent, hard working, model student, who was much respected whilst at Whickham School. It is for this reason that each year the student who excels in their EPQ demonstrating commitment and dedication - epitomising our School values is awarded the Craig Jones Award.
