

Achieving Beyond Expectations

JASON PURCHASE

Jason is a quiet but exceptional student who has worked incredibly hard in Year 12 to achieve beyond expectations. He was awarded outstanding in his effort, homework and behaviour assessments from all of his teachers and he is working above target grade expectations in his chosen three A Level subjects of Geography, RE and English. Jason is on track to continue with this success in his Year 13 studies. Since starting sixth form Jason has shown what a personable and polite student he is, always taking the time to check on others including his teachers. He has shown continued support to his peers, including those who were new to Whickham Sixth Form. His caring and helpful nature is an absolute credit to him and we feel that Jason is very worthy of this prize giving award.
