

# Leadership & Demonstrating School Values

## JASMINE UPPAL

Jasmine has fully submersed herself in Sixth Form life and activities since day one, taking every opportunity to support others and her peers. Jasmine has regularly supported teachers and students in registration interventions, showing true leadership and an appreciation of our school values. Jasmine was heavily involved in the charity week committee and as an individual could always be relied upon to undertake any task as long as she knew it was helping others whether it was bag packing in the Co-op or supporting the community in a Christmas wreath making workshop. Jasmine is often quiet and at times has lacked confidence, and at every opportunity she has challenged herself to push the boundaries and become more confident and develop resilience. Academically, Jasmine is doing fantastically well in her studies and she is already driven to attend University post year 13 and continue her studies. We are delighted that Jasmine was recently appointed Deputy Head Girl and feel she is well deserving of the award for Leadership and Developing School Values.
