

Overcoming Barriers to Learning

KATIE MARSH

Katie's final year at Wickham School has proved to be a highly successful one. Katie is hugely respected by all teachers and her peers due to how she has managed her mental health problems to leave Wickham School with a set of amazing A level results and a place at Exeter University, one of the finest in the country. Katie has typified so many of the qualities we like to see in our sixth form students, not least her resilience and the huge compassion she has for those around her. Katie will be hugely missed by the Sixth Form team, the staff in AEN and all of her teachers at Wickham School who speak so highly of her.
