

# Year 12 Olympic Value Inspiration

## JESSICA MAITLAND

We are delighted to award Jess the Olympic Value Award for Inspiration for her commitment to both sixth form academic studies and her community work. Jess' teachers concur that she is a hardworking and determined student with an excellent work ethic, always striving to do more. Jess' year 12 report shows she is outstanding in all areas of effort, behaviour and homework. At 16, Jess became a girls karate coach to motivate others into sport and increase their confidence. During the pandemic lockdown Jess continued by running her classes online. She has previously developed her personal and professional learning by completing a course with the SSP to enhance the exclusivity of young people with additional needs. Jess continues to compete in her karate and has been successful in both Junior European and World Championships and was instrumental in raising her own funds to allow her to achieve these goals. Jess has also been inspired to help others and she continues to raise money for dementia research in memory of her grandma, she has also recently applied to become a school mental health ambassador. Jess embodies our Olympic value of Inspiration and we are very proud of all she has achieved.
